Dear Mr Thompson

#### CONSTRUCTION SAFETY AND HEALTH AWARENESS EVENTS – THANK YOU

I am writing to thank you for your contribution to the recent series of Safety and Health Awareness Events and the roof safety events, which took place last year.

The feedback we have received has been very positive with many people citing your talk as the highlight of the event, stating what a moving, heart-felt account you gave of Ian Whittingham's story and how effective it was in driving the health and safety message home. I understand you have gone to great lengths, travelling long distances in the evenings to attend the events and I want you to know how grateful I am for this.

The events have been well received and have made a significant impact within the construction industry across the north west and your input has been instrumental in achieving this.

Yours faithfully

**Mike Cross**

**Head of Operations (Construction – NW England)**
